

Certificate of Compliance

This is to certify that [BUYER] with VAT number [BUYER VAT], hereinafter referred to as the "Buyer", is the rightful owner of the [tool description] implant, with serial number [SN], effective as of [Date of Transfer].

As per the guidelines outlined in exploration BAO-0303681 by the Federal Agency for Nuclear Control (FANC) in Belgium, it is affirmed that upon disposal of the device mentioned above, the operator must possess either a certificate of destination or a destruction certificate:

The Buyer confirms that concerning radiation protection, there exists local legislation applicable to such devices that must be complied with. By signing this document, the Buyer acknowledges being informed of these legal requirements.

The Buyer's signature on this document signifies an acknowledgment of the relevant legislation regarding radiation protection. In the event that the Buyer decides to resell the device, they are obligated to pass on this knowledge to their own buyer.

This certificate is issued to ensure that the Buyer is aware of their responsibilities regarding compliance with applicable radiation protection laws.
